

Change Log June 2017

6/1 - Added Semi-Supervised Learning lesson to GAN part

6/7 - Removed unnecessary frames from Other Generative Model, How GANs Work video

6/9 - Removed audio repetition from GANs Architecture video.

6/9 - Corrected graph at 3:27 to 4:00, the function at 4:00 to 4:08, and the function at 4:23 to 4:40 in the Practical Tips and Tricks for Training GANs videos.

6/14 - Re-recorded autoencoder notebook videos. Autoencoder lesson was moved earlier in the syllabus for new classes, so needed to refresh the implementation walkthrough.

6/14 - Updated the Anna KaRNNa notebooks in the Intro to RNN lesson to work with TensorFlow 1.1

6/14 - Updated sequence to sequence notebooks and language translation project to work with the new API from TensorFlow 1.1
